May 2019

## PROJECTS

---

**Text to Image Generator AI**

Mar 2025 – May 2025

- Built a **full-stack AI-powered web application** using the **MERN stack (MongoDB, Express.js, React.js, Node.js)** to generate images from text inputs.

**Job Portal Website**

Nov 2023 – Feb 2024

- **Led a team** in creating a full-stack job portal web application with the **MERN stack** to simplify the recruitment and job application process.
- Incorporated **Clerk Authentication** to manage secure login, registration, and role-based access of recruiters and job applicants.
- Implemented and managed **RESTful APIs** with **Express.js** and **Node.js** to manage job postings, user information, and applications. Used **MongoDB** to store user profiles, job posts, and application records in a structured and scalable manner.
- Integrated job search, filtering, and application functionality to enhance usability and user interaction

## INTERNSHIP

---

- Front End Developer Intern at Whizzo Technologies

Oct 2023 – Dec 2023

Developed and optimized user interfaces using **React.js, HTML, CSS, and JavaScript** to enhance user experience.

Collaborated with the development team to implement responsive designs, improve performance, and ensure cross-browser compatibility. Assisted in integrating APIs and debugging frontend issues for seamless functionality.

- Full Stack Developer Intern at Quintus Tech Pvt. Ltd

Sep 2024 – Dec 2024

Developed and maintained web applications using the **MERN stack (MongoDB, Express.js, React, Node.js)**. Designed and implemented RESTful APIs, optimized database queries, and built dynamic user interfaces for improved user experience. Collaborated with the team to troubleshoot issues, enhance performance, and deploy scalable solutions.

## EXTRACURRICULAR

---

**Cyberwarrior Club**

Mar 2022- Jul 2023

- Engaged in cybersecurity workshops and hands-on ethical hacking exercises.
- Researched and analyzed cyber threats to enhance security awareness and defense strategies
